Qeridoo

— With — safety on the road!

PRODUCT PRESENTATION

Lynix 1

The all-rounder in the Qeridoo world:

THE LYNIX FROM QERIDOO.

Practical as a buggy, but so much more maneuverable and flexible than a stroller. Particularly suitable for long bike rides, but so much more than just a bike trailer. To describe the Lynix is not easy! The compact all-rounder from the Qeridoo family offers quite a few benefits. Especially as a trailer it can really score points. Does your family loves extended tours through countryside? Then the Lynix is perfect, because in trailer mode your child can sit longer in the cabin due to the comfort seating system with woven-in back protectors makes the crucial difference: When your child has gathered seen enough of the colorful world outside, they fall asleep quickly and pleasantly, thanks to the easy-adjustable harnesses and comfortable seat.

Whether on the way to kindergarten or school, on a sporty afternoon outing or to visit friends in the neighboring town, the Lynix with its 360° rotating, air-filled buggy wheel, the tow bar with coupling and the 360° ventilation system was developed for one reason only: To make your everyday life easier. Right from the start: With the optionally available baby shell or hammock, you can take your baby along safely from the very first month of life – both in buggy and trailer mode. Even later with a toddler, you'll always get exactly where you want to go. Whether with jogging wheel, ski and hike set, or the retrofittable disc brake – everything adapts perfectly to your preferences.

Safety is paramount in any case and for any age, because nothing is more precious than your family. The sturdy aluminum frame offers your child all-round protection and the head protectors developed by Qeridoo provide additional protection in the event of a tip-over. Wheel guards, 5-point harness system and ample headroom do the rest to make each of your outings carefree and safe. Did you know that the height-adjustable handlebar serves as a roll bar in trailer mode? Or that the leaf spring damping system protects your child's spine from impacts?

The Lynix is available as a one or two-seater in Forest Green, the RRP is 650 euros for the one-seater and 700 euros for the two-seater.
