PRODUCT PRESENTATION

Kidgoo 1

Even more multi-talent:

THE KIDGOO MODEL HAS A LOT TO OFFER

Can you make good things even better? Yes, and all you have to do is look at the Kidgoo and its innovative details. The Qeridoo premium model not only comes with the familiar safety and comfort features but also inspires with an incredible number of small and big details that have been developed from experience, research and customer feedback. The result is the Kidgoo 2023, which, in addition to maneuverability, user-friendliness and top design, scores above all with its new and simple features that simply make your life easier.

The comfort seat system with soft all-round padding and the 360-degree all-round ventilation system are particularly pleasant for the small passengers. In addition to the reinforced aluminium frame with a low center of gravity and optimum road holding, the optimised leaf-spring damping system ensures a smooth and and low-vibration transport. The Kidgoo literally glides along ... and is therefore the ideal partner for carefree excursions.

Of course, the height-adjustable handlebar and the unique and patented Qeridoo head protectors, which are unrivalled safety-relevant, are also included.

A lot has changed in the interior: the height adjustment of the adaptive restraint system („easy ARS“) is now adapted to your child in seconds. An absolute innovation that is currently only available in the new Kidgoo! You can remove the seat with minimal effort. The additional window provides a clear view through which you can keep a close look at your child at all times. The magnets of the pockets have been optimised and thanks to the exclusive Fidlock® fasteners the 3-in-1 canopy holds perfectly without having to use a lot of force. This also applies to the user-friendly locking knob, which can also be opened easily by pushing.

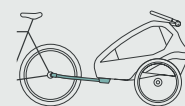

You have always been able to store the Kidgoo in a space-saving way and, for example, take it with you in the luggage compartment of your car. The tow bar with quick-release function and coupler transforms it quickly and easily into a bicycle trailer. Whether you want to go for a walk or bike ride or hike in the mountains or ski in the snow thanks to the optional accessories, the Kidgoo is so ready! It accompanies all your adventures reliably, safely and even easier.

The Kidgoo is available as a one seater or two seater in the colours Steel Grey, Navy Blue and Ivy Green.
