Kidgoo 1 Pro Gen 2

EVEN MORE PERFORMANCE. EVEN MORE COMFORT. THE KIDGOO PRO.

The Kidgoo Pro takes everything that defines the Kidgoo to a new level. More features, more control and even more comfort – for everyone who wants more than standard. Here, the proven all-rounder meets real pro features that get you ready for every adventure from the very first moment.

READY FOR PERFORMANCE.

With the Kidgoo Pro, you don't need to upgrade anything – you can get started right away.

The jogger wheel is already included in the scope of delivery and makes the trailer immediately ready for sporty use.

In addition, the pre-mounted disc brake ensures precise control, especially at higher speeds, on descents or when jogging. More safety, exactly when you need it.

SPORTY DESIGN MEETS COMFORT.

The new seat design not only gives the Kidgoo Pro a particularly dynamic look, but also provides even more seating comfort. In the elegant Barista Brown colour, the trailer becomes a real eye-catcher – modern, premium and timeless all at once.

MAGNETIC. INTUITIVE. SIMPLY PRO.

In everyday life, one thing matters most: easy handling.

The height-adjustable 5-point safety harness with magnetic FIDLOCK belt buckle makes buckling up quick and intuitive. Securely close with just one hand, adjust individually and set off straight away – that's exactly how uncomplicated mobility should be.

PROVEN STRENGTHS. THOUGHT THROUGH AT PRO LEVEL.

The Kidgoo Pro builds on the well thought-out strengths of the Kidgoo and these are exactly what make it so versatile and reliable:

The reinforced aluminium frame, together with the low centre of gravity, ensures particularly stable road handling. Unevenness is effectively cushioned by the proven leaf spring suspension system, so your child travels calmly and comfortably at all times.

Additional safety is provided by the patented and innovative head protectors, which optimally protect the head area and, in combination with the well thought-out design, create an all-round safe riding experience.

Inside, the comfort seating system with integrated back protectors offers secure support, while the patented and adaptive restraint system (easy-ARS) can be perfectly adjusted to your child in seconds. This way, the trailer grows flexibly with your child and always remains optimally adapted.

The 360° ventilation system ensures a pleasant climate in the cabin, while the 3-in-1 canopy reliably protects against sun, insects and splash water protection, no matter the weather. This is complemented by the lateral sun cover with hook-and-loop fastener in the cabin, which additionally protects your child from direct sunlight and provides even more comfort on the go.

The Kidgoo Pro also impresses in everyday life with well thought-out details:

The becco coupler system enables quick attachment and detachment, while the generous storage space and numerous stowage options offer plenty of room for everything you need on the go.

This turns a bicycle trailer into a reliable companion for everyday life, leisure and sporting adventures.

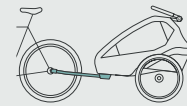

FOR THOSE WHO MAKE NO COMPROMISES.

The Kidgoo Pro is for everyone who makes no compromises: more sportiness, more comfort and maximum equipment from the factory.
