PRODUCT PRESENTATION

QUPA 1

The newcomer in the Qeridoo world:

THE QUPA FOCUSES ON AFFORDABLE DESIGN WITH SAFETY

He is chic, he is technically top, he fits into the budget and accompanies you everywhere — the QUPA is the latest member of the Qeridoo family and offers as an entry-level model the most important and popular features, coupled with the proven Qeridoo safety.

The QUPA is available as a one or two-seater in the colors Blue, Grey and Lime. The highlight: Thanks to the 360° rotating hard rubber buggy wheel and the tow bar with a coupler, you can switch between buggy and trailer mode in an instant. Take it wherever you want — thanks to the leaf spring damping system, it also cuts a really good figure on uneven roads. It sits securely on the road, cushions well and thus offers a special comfort for you and your child in its price segment.

It becomes sloping? No problem, because the hand parking brake secures the QUPA exactly where you want to leave it. The 3-in-1 canopy makes the Qeridoo a reliable partner in any weather. For example, the insect protection net provides ventilation in summer, the splash water protection keeps moisture out and the height-adjustable sun cover lets your child sleep wonderfully even on bright days.

As always, Qeridoo has not compromised on safety. The height-adjustable handlebar offers the unique head protector function of the higher-priced models, closing a dangerous safety gap in the event of a hazardous situation. In trailer mode, it also serves as a roll bar. And with the integrated 5-point harness system, Qeridoo also proves that great design and maximum safety don't have to be priceless.

The choice is yours — whether you're going for a walk, a hike or a bike ride, just pack some snacks in the mesh pockets and start your next adventure with the new QUPA!
